

Get New Password

Last Modified on 06/27/2023 10:01 am EDT

Whether you're forgotten your password or need to set up a new password, you can do both from the login page.

First, navigate to your DevResults site (____.devresults.com). Click on the **Reset password** button. (You no longer need to enter your email at this step.)

Welcome! Please log in.

Send password reset link by email

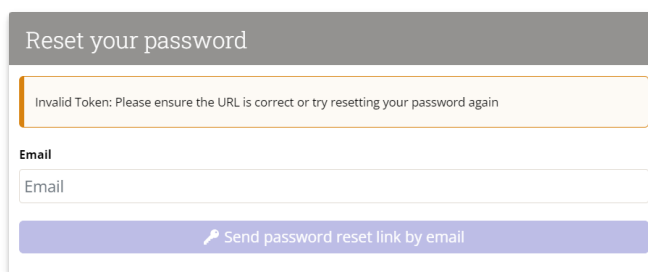

You'll be sent an email with a link to choose a new password. Check your email and follow the instructions to reset your password. If you don't see an email from DevResults Support (help@devresults.com), check your spam folder.

Password reset email sent.

Please check your email and follow the instructions to reset your password.
If you don't receive an email after a few minutes, please check your spam folder.

Please note that **the new password link will expire in three hours** If you receive the following message, you'll need to request a new password reset email.

Reset your password

Invalid Token: Please ensure the URL is correct or try resetting your password again

Send password reset link by email

If you click on the new password link within three hours, you'll be able to choose a new password. Be advised that passwords must be at least 8 characters long, and **commonly used or known leaked passwords** are not allowed.

Welcome! Choose a new password.

[✔ Change Password](#)

Once you log in, if you would like to change your password to something else, you can [Change Your Password](#) from your user profile page.

Note: Because password reset links expire within three hours, site owners are advised not to send reset links to other users outside of their working hours.
