

# INL User Guide

Last Modified on 09/15/2025 4:25 pm EDT

## Welcome to the DevResults User Guide for INL Implementing Partners

DevResults is an online database specifically designed for monitoring implementation and performance of foreign assistance projects. It enables INL staff and implementing partners around the world to organize, analyze, and visualize the monitoring data they collect.

- You can access your DevResults site at [inl.devresults.com](https://inl.devresults.com).
- Need help? Contact [INL-DvR-Mailbox@state.gov](mailto:INL-DvR-Mailbox@state.gov) and we will respond promptly.

This page provides materials designed to aid implementing partners with the DevResults platform. Select topic areas or simply scroll to review all available resources.

**Before you start:** Download the DevResults Enrollment [one-pager](#) and watch the [video](#) for guidance — designed exclusively for INL Implementing Partners.

When you're ready to get started, jump to one of the following sections:

1. [DevResults Enrollment Materials](#)
2. [Account Set Up and Log In](#)
3. [Indicator Data, Targets, and Narratives](#)
4. [Submission Process](#)
5. [Revising Monitoring Plans](#)
6. [Visualizing Data](#)
7. [Additional Resources for Partners](#)

## User Guides and Resources for Partners

### 1. DevResults Enrollment Materials

Implementing partners need to complete the first 3 documents and send them to the INL project manager within 30 days of project start date for new projects. View the [Example Enrollment Package](#) for guidance.

- [Standard Indicator Form "SIF" \(pdf, video\)](#)
- [Activities, Milestones, and Deliverables Table \(video\)](#)
- [User Information Table \(video\)](#)
- [Performance Indicator Reference Sheet "PIRS" \(video\)](#)
  - **Note:** The PIRS is not needed to enroll your project in DevResults, but you will need to complete one if/when you wish to add custom indicators for the project. You can complete or update a PIRS during initial project setup, or at any time during project implementation.

### 2. Account Set Up and Log In

- [New Users - Log In to INL DevResults](#)

### 3. Indicator Data, Targets, Narratives, Checklists, and Photos

- Report Direct Entry Data
  - [Report online](#)
  - [Report via Excel](#)
- Report Data Table Data
  - [Report online](#)
  - [Report via Excel](#)
- [What To Do If You Cannot Report Indicator Data](#)
- [Entering Narratives](#)
- [Adding Photos](#)

### 4. Submission Process

- [Submitting Data](#)
- [Submitting Data Checklist](#)
- Generating the Performance Report using the [Project Report Tool](#)
- [Accessing Project Documents](#)

### 5. Revising Monitoring Plans

If you need to make changes to your indicators, reach out to your INL Project Manager to discuss the steps below.

- For **adding new indicators**, use a new PIRS / [Performance Indicator Reference Sheet](#) and add a new line for each new indicator. Your INL project manager will need to submit the document via the INL DevResults Team.
- For **modifying or deleting indicators**, generate the Indicator Information Report using the [Project Report Tool](#). Edit the indicator information in the document as needed. Your project manager will need to email the document to [INL-DVR-Mailbox@state.gov](mailto:INL-DVR-Mailbox@state.gov).

### 6. Visualizing Data

These materials are for all users who have data approved in DevResults and would like to visualize it in a dashboard:

- Quick Video Tutorial: [Dashboards](#)
- Quick Tutorial: [MultiMatrix](#)

### 7. Additional Resources for Partners

- [Design and Monitoring Requirements](#)
- [INL Project Locations Template](#)

[back to top](#)
